FENCING & GUARDRAILS · PRODUCT DATASHEET

Traffic Signs

Reflective sign panels with posts and brackets for road, facility and guardrail packages.

Common applications

- Road safety projects
- Industrial and facility sites
- Guardrail and road packages

Supplied by drawing

Panels, sizes, finish and packing are made to your drawing, sketch or parts list and confirmed in writing before production.

Typical specifications (quotation examples)

Reference	Description
Triangle 900 mm	Warning sign size example; final size follows the drawing or sign schedule.
Circle 600 mm	Regulatory sign size example; artwork and sheet grade confirmed with buyer documents.
Aluminum panel 2.0 mm	Panel material and thickness reviewed against the project requirement.
Post and bracket set	Post, bracket, base plate and bolt set supplied with the matched sign group.

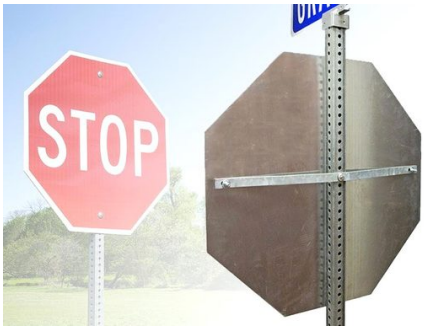

Examples only. Final sizes, loads and finish are confirmed against your drawings and project documents.

What we confirm before quotation

Sign panel	Sign function, shape, size and substrate; panel thickness, edge treatment and corners.
Reflective sheet	Reflective grade, color and sheeting standard matched to the road safety requirement.
Artwork and graphics	Symbols, arrows, text, colors and language; clear artwork or layout files.
Posts and brackets	Post size, height, brackets, base plate, clamps and bolts by sign group.
Packing groups	Signs, posts and accessories labeled by route, area or sign schedule.

Product and project photos

Standards and references

- Traffic sign panels and reflective sheeting can be reviewed according to project drawings, local road safety requirements and buyer-approved sign schedules.
- Reflective sheet grade can be discussed with references such as ASTM D4956 or EN 12899 when required by the project.
- Posts, brackets, bolts and base plates should follow the installation drawing, wind or load notes and site mounting method.
- Final artwork, symbols, colors, language and packing labels should be approved before production.

RFQ checklist: send these details for a faster quote

[ ]	Sign shape, size, material and panel thickness
[ ]	Reflective grade, colors, graphics and artwork files
[ ]	Post size, bracket type, base plate and fasteners
[ ]	Sign codes, route groups, quantity and packing labels
[ ]	Destination, delivery notes and project drawing or sign schedule
